

NEW RIOT GUNS in use in Torrance police department are examined by Lt. Donald Nash, left, and Capt. John Maestri. Model 12 Winchester hammerless repeating riot gun is 12-gauge double 00 buck shot made under specifications of sheriff's office. It's 33-

inch full length, a "must" for new low police cars. Torrance department has not been equipped before with suitable model. Fourteen weapons are being installed in patrol cars with electric lock on dashboard. Gun can't be removed if ignition is locked. —PRESS photo.

Richard Oliver Has 'Look-on' Marine Training

Marine Lance Corporal Richard Oliver, son of Mr. and Mrs. A. F. Oliver of 2517 W. 177th St., recently completed "look-on" training with the Second Battalion, Seventh Marine Regiment, First Marine Division at Camp Pendleton.

"Look-on" is the name given to a six-week period of intensive training which progresses from basic tactics of the fire team and squad to the complex maneuvers of the company and battalion.

Infantry battalions of the First Marine Division periodically undergo this training to bring new infantrymen up to combat-ready

standards. Infantrymen receive instruction and practice in scouting and patrolling, counter-guerrilla warfare and helicopter movements. The Marines also fire flame throwers, mortars and rocket launchers.

Airman Third Class Anthony Felix of Torrance is being reassigned to March AFB, following his graduation from the U.S. Air Force technical training course for jet aircraft mechanics here. Airman Felix, son of Mr. and Mrs. Oscar Felix of 20550 S. Earl, was trained to maintain and service

This constant training helps ensure the high degree of preparedness required of the Marine Corps in fulfilling its roles as the nation's "force-in-readiness."

Anthony Felix at March AFB

multi-engine jet aircraft and aircraft systems. The airman is a graduate of Torrance High School. He entered the Air Force in February.

'Patrician' Apartments Opening Set

Formal opening of "The Patrician," 91-unit apartment building at 2432 Pacific Coast Hwy. in Lomita, will be held this week, it was announced by Victor Zaccagnin, president of CalProp Investments, Inc., developers of the project.

The two-story structure, constructed at a cost of more than \$800,900, is unique in design inasmuch as it highlights the architecture of the Golden Age of Rome while at the same time featuring modern-day appointments.

Situated at the base of the Palos Verdes Hills, "The Patrician" boasts single and one-bedroom units with decorator colors and Italian provincial furniture, in keeping with the Roman theme of the structure. Spacious grounds provide for a country club-like setting amidst full-grown olive trees.

The grounds afford tenants the opportunity to partake in various forms of recreation and relaxation. A large heated swimming pool is the center for recreational activity. Additional facilities are a putting green, recreation building, shaded patios, barbeque area, and pool-side lounge.

The theme of the building is further carried out with the placement of statues of the Roman period. Classic lines of the Roman period are used in the building to emphasize the theme with the use of Roman arches at the front of the structure. Two large sculptured urns have been placed at the foyer entrance also serving to highlight the Roman theme.

Units feature marble-topped pullmans as well as spacious closets. All apartments are soundproofed and serviced by a central hi-fi system. Decor is augmented by custom drapes and wall-to-wall carpeting, and the rental fee includes all utility costs.
